

## Exhibitor Profile

Childcare Expo is your best opportunity in 2012 to meet and do business with key decision makers from the nursery, early years and childcare industry. They will come to find new information, discover and compare new products, and more importantly, they will come to place orders.

The exhibition will offer extensive opportunities for exhibitors to generate and increase brand awareness among all our visitors.

If you target nurseries, playgroups or anyone in the childcare industry, you are certain to expand your client base with brand new customers and gain maximum exposure at Childcare Expo.
