

Press Release

5th August 2011

GOMPELS' NEW CRAFT RANGE PRICED TO FLY OFF THE PAGE!

Buyers looking for bargain bulk buys of paints, crayons, glues and other items for pre-school craft activities can now purchase these alongside cleaning materials, wipes, paper towels and other nursery essentials at massive discount prices as Gompels Healthcare Ltd, leading supplier of every day consumable products to nurseries, expand their catalogue.

The new line, which will be made available with the September/October 2011 catalogue, builds on the success of arts and crafts products introduced earlier in the year by Gompels Healthcare Ltd and include top brand names as well as quality own brand Proform.

Sam Gompels, Managing Director of Gompels Healthcare Ltd comments: "This is great news for buyers who look to Gompels for the best deals around as the same type of discounts are now applied to arts and crafts products as other Gompels ranges and the same super-efficient purchasing/delivery service is used."

Gompels Healthcare Ltd thrives on unsurpassed service levels, fast delivery and competitive pricing. Products are sourced globally and discounts are passed to customers as a result of careful supplier scrutiny and seasonal deals. Customers also benefit from a sophisticated select and packaging system and accounts records for detailed analytics.

Gompels Healthcare Ltd is launching their September/October catalogue, which includes 30 new pages, at Childcare Expo in the Ricoh Arena, Coventry, 16 – 17th September 2011.
